

MOUSE HYBRIDOMA PRODUCING IGG3 ANTIBODIES AGAINST HUMAN TIGIT (WUCAM)

Boles, Kent, Colonna, Marco Poranki, Deepika

T-008862

Mouse IgG3 was generated by immunizing BALB/c mice with WUCAM FLAG-Baf3 cells. This can be used to study T cell-dependent antibody responses.

Publication: A novel molecular interaction for the adhesion of follicular CD4 T cells to follicular DC
